

**OPEL ACCESSORIES**

# **OPEL ZAFIRA TOURER**

**Product Information, November 2011**

# Accessories – exceeding customers' expectations and helping your business.

The purchase of a vehicle is a big decision for customers, and as a dealer you are there to help them choose the right Opel. Whatever vehicle they select, it also needs to help them meet their changing needs and lifestyle, reflect their personality and provide protection. The good news is Opel has an extensive range of genuine accessories to do all these things. Not only that, but accessories provide a strong profit opportunity for you and your business – not just from selling accessories themselves, but also from the increased retention that comes from satisfied customers.

The new Zafira Tourer offers a revolutionary new feeling of space because of the well-known Flex7® seating system. This is also the most exclusive Zafira that Opel has ever built – with a powerful dynamic style. Customers for this vehicle need to know that they can further enhance their ownership experience with Opel Original Accessories. They can see this on the Opel website, or in the accessories online catalogue, but the best place to be convinced is in the showroom with display and demonstration of the actual accessory range. From wheels to navigation, from carrying to protection, your customers can keep their Opel an Opel with Opel Original Accessories.

The main benefits of Opel accessories are that our products are tailor-made to the vehicle and that they meet all high quality standards of Opel.

## Extra sales potential

- Make accessories a natural part of your current sales process. 80 % of accessories are bought by customers during the purchase of their new car.
- Try to learn a few facts about your customers' lifestyle, so you can introduce them to the accessories that best match their interests. A little insight can go a long way toward making a successful sale.
- Customers like to see, touch and inspect accessories, so try to create an open display that allows easy interaction. Even more important is to fit a showroom model with accessories to attract attention and act as a high-visibility selling tool.
- Even after a vehicle sale is complete, every contact with a customer represents a worthwhile sales opportunity. Take a moment to remind customers about accessories each time they visit for servicing and repairs.
- Always highlight the advantages of Opel Original Accessories – the quality, precision and confidence that only Opel and your Opel partner team can provide.

This Product Information features key product details on the accessory product range available for the new Zafira Tourer. Many of these Opel accessories are also available for current Zafira B – either as carry-over or under a different part number.

**Note: all prices are recommended retail prices incl. VAT. Some images shown in this brochure do not reflect the final product and are for reference purposes only.**

**The information contained in this material was accurate at the time of distribution to the dealers. We reserve the right to make changes to specifications and technical or design features. Precise information on the accessory specifications for the new Zafira Tourer will be made available to the dealers soon, both via our accessories online catalogue and via other communication materials.**

# Wheels

## A great chance to bolt on more profit

Alloy wheels are one of the most requested accessories. They are an ideal introduction to any sales conversation. And when talking about wheels: tell your customers about the importance of winter tyres and about your complete winter wheels service.

Interior and exterior styling

### Thule snow chains<sup>1</sup>

Thule guarantees a safe winter drive: thanks to the patented Thule innovations the long-lasting snow chains nearly mount and tighten on their own.

**Restrictions for all snow chains:** for vehicles with engines A16XNT (CNG) and A20DTH snow chains are only permitted on tyre size 225/50 R 17 M+S.

**Note:** for further restrictions and information please refer to your car documents. The use of snow chains with winter tyres should be temporary.

<sup>1</sup> All warranty and policy responsibilities for these products are covered directly by our supplier.

Thule snow chains – Premium K-Summit

### Thule snow chains – Premium K-Summit

- Tread chain with alternating, specially injection moulded, plastic plates, with hard metal studs and special alloyed steel chain
- Wheel-fixing handle with ergonomic design – just one single-handed movement
- With ratchet system, welded bars, zero clearance and other Thule innovations for convenient handling
- Foldable arms for easy storage in a smart bag
- Fits tyre sizes 215/60 R 16 (chain size K34) and 225/50 R 17 (chain size K33)

Thule snow chains – Premium (CS-10)

### Thule snow chains – Premium (CS-10)

- Premium quality construction with hardened manganese nickel steel alloy (MnNi) for greater reliability – the best grip on snow and ice
- Colour-coded parts for easy mounting
- With rim protection, quick release, microregulation and other Thule innovations for convenient handling
- Hard-sided packaging included – complete with gloves, kneeling mat, mounting instructions and spare parts
- Fits tyre sizes 215/60 R 16 (chain size 097) and 225/50 R 17 (chain size 100)

### Thule innovations for snow chains

- 1. Self-centring and self-tensioning.** The chain automatically adjusts to the perfect position and safely tightens itself around the tyre as the wheel turns.
- 2. Microregulation.** For the optimal re-tensioning of the chain.
- 3. Rim protection.** Anti-scratch nylon bumpers protecting alloy wheels (optional application).
- 4. Ratchet system.** Allows quick and secure mounting.
- 5. Zero clearance.** No parts protrude into wheel case.
- 6. Foldable arms.** Reliably grip the wheel to hold the chains in place.
- 7. Double traction.** Pattern chain with welded double traction plates.

# Transport and carrier systems

## Opportunities to pack more profit into your sales

Your clients want practical solutions – the ideal starting point for your advice during the sales discussion. Ask your customers about their hobbies and favourite activities – and offer them the right carrier system, right from the start. All products undergo rigorous safety tests, are of the highest quality and easy to operate. Profit from the advantages of our cooperation with Thule, which enhances our portfolio and offers a wider range of innovative roof carrier attachment systems.

Interior and exterior styling

### Aluminium roof base carrier

Aerodynamically designed aluminium oval base carrier with T-tracks for easy plug-in of all roof carrier attachments.

- Easy to install and remove
- Secured by lockable caps

### Thule roof box innovations

- 1. Power-Grip.** Unique, patented quick mounting system. The grip claws are tightened around the load bar as the knobs inside the box are turned. Self-centring over the load bar for top security. Fits carrier bars up to 80 mm width.
- 2. Fast-Grip.** Patented Fast-Grip solution for easy fixation of the box. Attach the mounting hardware inside the box, then tighten the grip claws around the load carrier bars by turning the knobs. Fits carrier bars up to 90 mm width.
- 3. Easy-Snap.** Patented mounting system for quick and easy fitting. For load bars up to 80 mm width.
- 4. Dual-Side.** Allows to open the box from both sides, for easy mounting, loading and unloading. Thule's patented spring system Dual-Force and the inside and outside handles guarantee a convenient opening and closing of the box.
- 5. Central locking.** Patented safety locking system – the key can only be removed if all locking points are closed. This is standard on Thule 'Excellence', Thule 'Dynamic', Thule 'Atlantis' and Thule 'Pacific' roof boxes.
- 6. Thule diffuser technology.** Longitudinal air channels and a spoiler on the box base minimize air resistance, wind noise and vibrations.

### Thule wall hanger 9771<sup>1</sup>

For functional storage of sports equipment, e.g. bikes and kayaks, as well as bike carriers on the wall of your garage or basement.

- Maximum load: 40 kg

## Opel towing hitches

Especially designed for the Zafira, with fixed or removable hook.

- 50 mm ball
- Made of high-quality steel
- Bumper cutout necessary for
  - towing hitch, fixed: 65 mm x 85 mm
  - towing hitch, removable: 407 mm x 90 mm
- No restrictions with OE or Aftersales Park Pilot
- Cannot be used with the FlexFix® rear end carrier
- Validated to Opel/GM quality and safety standards
- Towing electrics to be ordered separately

**Note:** for max. towing load and max. static vertical load see car papers.

Products	Part No.	Cat. No.		
Opel towing hitch, removable	13 320 747	17 36 414	60 min.	000.00 EUR
Opel towing hitch, fixed	13 320 746	17 36 413	60 min.	000.00 EUR

## Towing electrics and adapters

Makes a safe connection to a camper or a bicycle carrier.

Harness voltage provider: allows the connection of pins 9, 10 and 11 – mainly used for supplying power to the trailer appliances while driving:

- These pins are currently not assigned to the trailer wiring harness
- The functions of these pins are:
  - pin 9: power supply
  - pin 10: load supply
  - pin 11: ground load supply

Adapter 13-pin → 7-pin socket:

- Converts 13-pin harness to a 7-pin connection
- Allows to tow either a camper or carry a bicycle carrier

Products	Part No.	Cat. No.

# Safety

## The perfect opportunity to secure extra sales

Do your customers have a family? Or are they planning on having one? Remind them of the laws regarding child safety and break-down equipment. Our range of child seats, as well as corresponding products, offer exceptional levels of safety.

Interior and exterior styling

### Opel baby cradle 'BABY-SAFE'

Child safety cradle for babies weighing up to 13 kg and around 15 months old, always to be fixed in rearwards position.

- Seat can be fixed to the car either with the seat belts or to the ISOFIX brackets by using the ISOFIX base
- ISOFIX base needs to be ordered separately
- Cradle can be fixed on front passenger seat if airbag is deactivated (vehicle option to manually deactivate airbag available) and on the rear seats
- Integrated three-point safety belt for securing the baby in the child safety cradle
- Seat covers washable and exchangeable
- Certified according to European safety standard ECE-R 44/04
- **ISOFIX brackets** are standard for both rear side seats
- Optional **ISOFIX base** (see picture below) is absolutely necessary when using the cradle as ISOFIX solution: base connects the factory-installed ISOFIX preparation with the baby cradle. Cradle to be clicked into the ISOFIX base

**Note:** the Zafira Tourer can accommodate three child seats in the second row at the same time.

## Opel safety products

The products are mandatory in many European countries. They meet ECE and DIN regulations and can be ordered as a complete kit or separately.

- High-visibility **warning triangle**, foldable, with safe and secure base, supplied in a storage box which fits into provision of the car in the boot lid
- Uniform-sized **safety vest** increasing the visibility in case of accidents or a flat tyre with day-glow colour (yellow) and additional reflector stripes
- Handy **first-aid kit** with blue zipper bag containing all legally required first-aid material

**Safety kit:** warning triangle, safety vest, first-aid kit.
